

PROHEART 6

6 MONTH HEARTWORM INJECTION

While most heartworm preventatives are a once a month oral tablet or applied topically once monthly, there is an alternative product available once again.

ProHeart 6 is a long acting injectable heartworm preventative for dogs given subcutaneously by a veterinarian once every 6 months. ProHeart 6 is an effective heartworm prevention which also prevents Hookworms (an intestinal parasite).

ProHeart6 is a convenient alternative for dog owners who have difficulty giving or remembering to give a monthly heartworm prevention. We also send out a reminder card when your next injection is due to keep you on track.

Like many prescription medications, ProHeart 6 is not suitable for all dogs or all situations, our educated staff is available to help you choose which products suit you and your pets' lifestyle.

All participants will receive a gift bag!

Register by September 20th, 2010

Summer, 2010

GREENTOWN ANIMAL HOSPITAL 1ST ANNUAL DOG WASH

WAS HELD ON SATURDAY, JUNE 26

The event was a huge success, everyone enjoyed free baths and nail trims. 'Gary the Grillmaster' kept the dogs hot and cokes cold.

We are grateful to all who donated their time and those who participated, you all made it an exceptional day!

Congratulations to Staci Pittman and Zipper for winning the raffle. They will claim a beautiful grooming basket donated by Greentown Animal Hospital and County Line K9.

We look forward to doing this again next year!

Lauren's journey to Greentown Animal Hospital started 5 years ago, helping in our kennel. Since that time she has been promoted to working as a receptionist and a veterinary assistant. After a few years as a student at Purdue, we're happy to have her back, working on a new system for keeping inventory more efficiently. Her duties also include running laboratory tests, filling prescriptions, caring for hospitalized patients and she always helps out wherever she is needed.

When Lauren is not working at the hospital or studying for her classes she enjoys riding her Thoroughbred horse "Cranberry" and spoiling her Dachshund mix puppy "Broc", who many of you have met when visiting the hospital.

Lauren's favorite part about working at Greentown Animal Hospital is the close bond that she has formed with her co-workers over the years. The team works great together and provides the highest quality care to each and every patient and owner that comes into the hospital. She is very proud to work with such compassionate, sincere and dedicated people.
